STRONG'S EXHAUSTIVE CONCORDANCE OF THE BIBLE

THE OLD-TIME GOSPEL HOUR EDITION

Foreword

A good craftsman needs good tools to do his job well. A Bible concordance is absolutely essential to a man who would become a skillful user of the Word of God. The *Strong's Exhaustive Concordance of the Bible,* in my opinion, is the finest concordance in the world today. It is the very concordance I purchased only hours after I had become a child of God, in January of 1952. I have used my *Strong's Exhaustive Concordance of the Bible* thousands of times in the past 25 years. Men of God have put thousands of hours of work and study into the compilation of this concordance. It provides for you the opportunity of utilizing materials compiled by the best scholars of the Christian church and making this material work for you.

Read the instructions in this concordance and learn to properly use it. Keep it with your study Bible and spend a great amount of time in study. As you will soon learn, this Strong's Concordance will enable you to study the Bible one word at a time. Every word in the Bible has a wealth of information for your spiritual enrichment. "Every Word of God is pure." I challenge you to learn how to skillfully use this tool.

II Timothy 2:15: "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." In order to rightly divide the "word of truth," you must have the proper tools. You have the necessary tools, if you have a good study-reference edition of the Scriptures, a good concordance, and a good Bible dictionary. Assuming that you have all these books, now launch out into the adventure of your life. Become a great Bible student.

Publisher's Preface

During the last half of the nineteenth century Dr. James Strong, professor of exegetical theology at Drew Theological Seminary, spent 35 years preparing the most complete and what has become the most widely accepted concordance of the King James Version of the Bible. Every word in the Bible is listed with every passage where the word is found. The remarkable dedication this involved is realized only when one considers that this was done manually, without the benefit of modern computers or other electronic equipment. In September, 1947, the *Christian Herald* described this work as "a book to defy description and reviewers: the old classic, the best ever written."

We are proud to publish this useful edition of Strong's Exhaustive Concordance of the Bible. This edition includes The Main Concordance, which lists every word in the Bible and the reference and context of every appearance of that word. It also includes a dictionary of the Hebrew Bible and a dictionary of the Greek Testament, which give the original Hebrew, Chaldee, and Greek of each word in the Bible and explains its meaning.

We have omitted two sections in Dr. Strong's original work which are of minimal importance and would add more to the cost and bulk of the book than they would value to the user. The first section to be omitted is an appendix to The Main Concordance giving the occurrences of 47 words which are listed by reference only. Those words are a, an, and, are, as, be, but, by, for, from, he, her, him, his, I, in, is, it, me, my, not, O, of, our, out, shall, shalt, she, that, the, thee, their, them, they, thou, thy, to, unto, up, upon, us, was, we, were, with, ye, you. These words are so common as to be of no value in finding a particular passage of Scripture.

The second section to be omitted is a comparative concordance listing all the variations from the King James Version found in the English Revised Version (1885) and the American Standard Version (1901). We have omitted this section because both of these translations are used relatively infrequently today, having been generally replaced respectively by the Revised Standard Version and the New American Standard Bible. Please note that asterisks, obelisks, and double obelisks found in The Main Concordance—and explained under number 1 on page 4—relate to this comparative concordance and thus have no importance in this edition.

With this edition, we feel we have provided you with the most useful, complete, easy-to-handle, and economical concordance of the King James Version available.

DIRECTIONS AND EXPLANATIONS.

Look for the passage sought under any one of its words exactly as it is spelled in the Bible,* choosing for convenience' sake the most striking or significant word in the passage that you can recall.†

The leading word in each article is printed in *italic* letter in the several citations, and always abbreviated to its initial letter, followed by a suspended (technically "inverted") period-mark (·). No other italics are used in the quotations.

Phrases, groups or combinations of words (not printed as compounds in ordinary Bibles) will be found under each of their words separately. The chapter-headings and marginal notes of reference-Bibles and similar works are of course not included in the citations; but the *titles* to the Books, to the Psalms severally and the *subscriptions* to the Epistles are, as they represent parts of the original texts.

The following forty-seven unimportant words of very frequent occurrence are cited (in the Appendix) by reference to chapter and verse only, inasmuch as no person would think of searching out a text by means of them, and the quotation in full of the passages where they are found would be nearly tantamount to reprinting the entire Bible under each of them:

In the use of the *reference-column* appended to the passages, which is the key to the connection with the subsequent portions of the work, the following particulars will be sufficient to note here.

1. An *asterisk* (*) calls attention to the fact that in the text quoted the leading word is changed for some other in the Revised Version; while an *obelisk* (†) shows that a change has been made by the British revisers only, and a *double obelisk* (‡) marks a change by the American revisers only. What the change is in each case will be seen by consulting the Comparative Concordance under the same word.

2. The appended *number* indicates that the leading word in the passage quoted is there the translation in the Authorized Version of the Hebrew or Greek word correspondingly numbered in the Dictionaries given in the latter portions of this work; upright numerals (1, 2, 3, etc.) being used for the Old Testament (that is, Heb. or Chald.), and sloping or "italic" ones (*1*, *2*, *3*, etc.) for the New Testament (that is, Greek). The lexical explanations may thus be found and used by any person, whether acquainted with the original languages or not. The absence of a number at the end of the passage shows that the word in question is not there the rendering of any particular term in the original, having either been supplied by the translators for the purpose of greater clearness (in which case in ordinary Bibles it is printed *in italics*), or being the representative merely of some inflectional *form* (auxiliary, preposition, adjunct, etc., or peculiar *idiom* of a Hebrew or Greek term (which in that case is to be sought under the principal associated word of the same passage).

The following abbreviations of the names of the several books of the Bible are uniformly employed, no two of them being designated by the same formula:

* The standard of verification employed is *"The Parallel Bible,"* minion (a large 8vo edition of the Oxford Press, England; impression of 1886), to which the spelling, punctuation, and use of (initial) capitals and hyphen have been rigidly conformed.

† From a failure to recollect a passage accurately, persons often search for it in a Concordance under some word which it really does not contain. If the reader does not find in this Concordance the passage sought for under the word which he has chosen for that purpose, he may be sure that such a mistake of his own is the reason. In that case he has only to look for it under some other word. If he can remember only one word of the passage, he could scarcely recognize or identify it, should he actually find it.
